## Anaconda

### OILS COMPANY LIMITED

We are pleased to announce that we are again selling ANACONDA, this time two shares for one dollar instead of 3 shares for \$1.00. You will see from the map that the ANACONDA now has approximately 4400 of good leases, having purchased 1000 just recently, some of which cannot be purchased today under \$2000 an acre. The rig timbers for the well have been ordered and the lumber for the buildings are now being hauled out to the field. You must see the map at our office in order to appreciate this company's holdings, and please bear in mind that they own 3500 shares of Baltic Oil Stock which is being drilled next to the Home, and further they have ten acres very close to Royalite 4. Their first well is being drilled about 1½ miles N.W. of the Vulcan and Spooner wells and near the Foothills well No. 1.

### LOCAL NEWS ITEMS

Mr. and Mrs. Bud Elston of Ensign spent a few days in Hanna last week.

Mrs. Shultz of Brant was a town visitor on Friday, to attend the institute.

Mr. Joseph Taylor, Sporting Editor of The Vulcan Advocate, spent a few days in Calgary last week.

Mr. M. J. Wilson of the Caterpillar Tractor Co., of Peoria, Ill., was in town on Wednesday, transacting business with the local agent, Mr. J. N. Mitchell.

Mr. Wallace McIntyre left Tuesday morning for Okotoks where he has accepted the position as assistant agent with the C.P.R.

There was a real good crowd in town on Saturday night to see the boxing matches. A wonderful fight was put up by all of the contestants.

Mr. Bud Flood of the Claresholm Bank of Commerce staff spent the week end with his parents Mr. and Mrs. A. J. Flood of town.

Mr. O. A. Craig spent Sunday in Calgary visiting his daughter Helen. He reports a great improvement in her health.

The Big 4 cartage truck from Edmonton was in town this week to move the household effects of Mr. Burrows to Edmonton.

K. R. McLean of McLean & Anderson Sight Specialists, 208-8th Avenue, West Calgary, visits the King Drug Store every second Saturday. Make appointments at Drug Store or with Drs. Carson & Burke.

Miss Elizabeth Flood, who has been working for the past number of years in the office of Mr. Maher, as stenographer and also with her father in the municipal office, left for Calgary on Monday morning where she has accepted a position with Solloway, Mills & Co., stock brokers.

The Vulcan Basketball Girls and Boys were participants in a very enjoyable theatre party on Friday last when they attended the showing of "The Michigan Kid". After the show they were entertained at the home of Loreen McKay and Lily Thompson with games and dancing. Lunch was served by the Basketball Girls. Games and dancing were then resumed until the party broke up. Those present were: Marion Hartford, Leta Roe, Mable McPherson, Sylvia Seaman, Jessie Packwood, Margaret Munro, Isobel Flood, Loreen McKay, Lily Thompson, Allan McAskie, Harold Hemingway, Clyde Clark, Harry Ferguson, Frank Jackson, Theron Vaughn, Ralph Fetherston, Allan Johnson, Herbert Linley, Bobby Marshall, Harland Schenck and Elwood Lebow.

### IN AND AROUND THE CLUB

Well the fight came off all right with everybody satisfied with the card.

Frankie was in great shape and a popular winner. Jimmie took a lot of punishment, but like the good sport he is admitted the superiority of the local boy.

All the boys gave of their best, and although the crowd was not large they were appreciative. Glad to see so many ladies present.

The next big event will be on May 24 when Cowie and Harris will clash for the featherweight championship of Western Canada. This should be some "go" and if Lon Rowand cannot attend then Alex Wilson will again be the third man in the ring.

We notice our old friend Scotty Pearson has signed for the Brewery. If this boy's ankle holds out he should be the best forward in Calgary this year, and we don't mean maybe.

The football team is endeavoring to arrange a practice match with Union Jack before the 24th, and no doubt all the fans will be anxious to find out how this year's team will stack up.

The baseball team will no doubt play at Arrowwood in the near future. Did you witness the golf match on Sunday. We didn't, but "nuff sed." You no doubt planted a tree on Arbor day.

The Welshmen are playing in Calgary on June 12th. Everyone will want to see this football game, and we are now endeavoring to learn the language so that we can make the visitors feel at home.

Bill Buxton gave our A.A.A. quite a boost in the Lethbridge papers the other night. Thanks Bill.

Frankie is to fight an Indian at Gleichen next week. Look out boy he might get your scalp.

Constable Bull has gone on holidays, Constable Key has left town, and the Silent Policeman has been "canned." Time brings many changes.

We had the pleasure of hearing the band last week. Unfortunately the weather was bad, and spoiled the attendance, but we who heard the boys sure appreciated the music.

This happened in Vulcan last week. Old lady to little boy playing in the mud puddle, "come out of that puddle, boy." Little boy, "Oh gwan and get a puddle of your own."

Our tame poet has sent us the following, which we consider the greatest atrocity yet perpetrated, but if you can stand it we can.

"One need not go to foreign climes  
For animalistic high jinks  
Sure any bozo here can tell  
Of the wild and tricky golfynx"

Miss Rilla Watt spent a few days in Calgary last week, visiting friends.

Mrs. Henry Snyder of Kirkealdy underwent two minor operations in the Municipal Hospital on Saturday. Her friends wish her a speedy recovery.

### VICTORIA DAY PROGRAM

Arrangements are already under way for a big day in Vulcan on Friday, May 24th. There will be games of baseball, football, basketball, etc., besides a boxing tournament, with the added attractions of the Kapel All Canadian Shows, and Anderson Bros. (Calgary) aeroplane which will perform stunts and carry passengers. It is probable that the celebration will extend over Saturday, May 25th.

At a public meeting held in the Memorial Hall last night, with Mr. E. King, president of the newly formed Vulcan Athletic Association in the chair, the constitution proposed by the committee was, with a few amendments, adopted, and further arrangements discussed for the celebration on Victoria Day. The program for the big day is left in the hands of the committee: Mayor Butchart, Messrs. Errett King, E. G. McPherson, G. C. Collier, and R. L. Elves.

A committee was appointed to conduct a drive for membership in the association

### WOMENS' INSTITUTE

The regular meeting of the Vulcan W. I. was held on Friday, May 3 in the Union Church parlors, with Mrs. McPherson, president in the chair. There was a good attendance in spite of the rain and poor roads. It was decided to donate \$25. to the Vulcan Amateur Athletic Association. Mrs. McMann was chosen as a substitute delegate to attend the convention held at Edmonton this month. Mrs. Galbraith gave an excellent paper on Legislation which was very much appreciated by all present. A number of the Brant Institute ladies were present and much credit is due the social committee also to those who so kindly contributed toward making the afternoon the success that it was. The program was as follows: Butterfly dance by Ruth Peterson and Carol Marshall; recitation by little Nita Scott; musical selection by the three McPherson girls; recitation by Eveline Peterson and a piano solo by Ruth Peterson. A prize given for a flower guessing contest was won by Mrs. Sheffield. A very dainty luncheon served by Mrs. Clark, Mrs. Collier, Mrs. Dickenson, Mrs. Curruthers, Mrs. Lambert and Mrs. Walker, brought a very enjoyable afternoon to a close.

### ANGLICAN CHURCH NOTES

St. Aldhelm's Church, May 12th. Sunday school 10 a.m.; Matins 11 a.m. Evensong 7:30 p.m.

There will be a service at Union Jack at 3 p.m.

Senior and junior choir practice will be at 7:15 p.m. Friday in St. Aldhelm's church.

### WORTH KNOWING

Mr. J. N. Mitchell of this town has sought the assistance of the United States Treasury Department on a matter that may be of interest to many of our readers.

The letter from the deputy collector of customs at Spokane, which explains itself, is printed below:

"Replying to your letter of the 27th ult. I would state that the car may be returned to the United States by you without the payment of duty, provided the car is of American manufacture. Paragraph 1514, Tariff Act of 1923 provides that articles manufactured in the United States may be returned to this country free of duty if imported by the same party who exported them."

### CHURCH OF CHRIST NEWS

Lord's Day, May 12th at the Church of Christ will be a great day. At 10:30 the sermon will be "Men and Mothers." At this service mothers will have the place of honor. At the bible school hour, there will be a program of songs and recitations by the pupils of the school. All in the honor of mothers. The Christian Endeavor at 7:15 also plan some such programs and the evening evangelistic services will have the mothers' day features. Songs, sermon and sentiment will all be in keeping with the day. This is the last time we will appear before the public as we will start home this following week. We wish to meet the friends we have made at each and all of the services.

At Reid Hill we will be present at 12:00 and have a mothers' day program there. Mothers are invited to attend and have the place of honor here also. The sermon and songs will have the right sentiment at each service here as well. We extend an invitation to the public to worship with us.—O. P. Burris, Minister.

Mr. A. W. Key who has been engaged as the townman for the past few years left for Calgary at the end of the month where he has accepted his old position with the MacIn Motors. He takes with him the best wishes of a large number of friends for success in his new undertaking.

### EARLY CLOSING

Vulcan merchants have agreed to close their stores at one o'clock each Wednesday from May 15th to the commencement of harvest operations, and ask that their patrons kindly note.

### JACKSON IS CHAMPION

Local Boy, Trims Jimmie Cameron of Edmonton, in Bout for Junior Welterweight Championship

The promoters of Vulcan branch, Canadian Legion, B.E.S.L., put on another first class boxing show last Saturday evening in a specially constructed arena at the Vulcan skating rink.

The opening bout was between Harry Ferguson and Dannie Campbell, both local boys. Ferguson surprised the fans by his exhibition and proved that he has quite a punch for his size. Dannie did not appear to be in the best of shape and Ferguson well earned the decision.

In the next bout Theron Vaughn, the popular local youngster, gave away too much weight when he allowed ten pounds to Witting of Lomond. Theron proved to be the better boxer but the Lomond boy gained the decision by his aggressiveness. Despite the difference in weight the bout was a good one and local fans would like to see Theron in action against an opponent of more equal weight.

In the semi-windup Dannie Jackson met Kid Berg of Edmonton; after an even first two rounds the local boy got well ahead on points toward the finish. Dannie showed more experience than he did in his last fight.

In the final bout Jimmie Cameron of Edmonton met Frankie Jackson of Vulcan for the junior welterweight championship of Alberta. Frankie gained the title by winning every round. This was their second meeting the former one having resulted in a draw, but for this fight the local boy got himself into real shape and put up a better fight than he has done in Vulcan previously. Cameron tried hard for a knockout but Frankie just beat him to the punch. This bout was about the cleanest and fastest that has been seen here.

Alex Wilson of Calgary was the third man in the ring and proved himself a popular referee with the local fans who would like to see him here more frequently.

A few enthusiasts from Gleichen witnessed the show, and it is quite likely that Frankie will perform in their town in the very near future, they evidently being surprised to see such a high-class boxing card put on in a town of this size.

The local promoters, Colin McInnis and George Munro are now planning for another show for May 24th and local fans are assured that it will be a first-class card as the above named promoters will not tolerate indifferent performers.

### BUSINESS CHANGE

Readers will find by reference to our advertising columns that Mr. N. Holmes has disposed of his business here, and while regretting that he has severed his connection with the commercial life of the community, will be glad to know that he intends to remain a citizen of Vulcan.

Patrons of the store will also hear with pleasure that Mr. F. M. Anderson, who has been associated with Mr. Holmes since he came to Vulcan, became a partner in the new firm and will be active manager of the same, thus ensuring a continuity of the service which has always been appreciated by the public of Vulcan and district.

### HIGH SCHOOL REPORT

Examinations conducted during the last week of April resulted in High School students being placed as shown below. Individual reports have been prepared and sent to parents and guardians. These reports should be examined carefully, particularly in cases where students have made less than 50 per cent. in any unit of work. In a few cases students who are attempting to do too much have been advised to drop a unit for the time being. If this advice is acted up, time that would otherwise be used without much possibility of satisfactory results can be given to work in which the students concerned are more likely to succeed.

It is becoming more and more apparent, as the present curriculum is being tried out, that while some students can handle seven or eight units (Continued on the Back Page)

### TOWN COUNCIL MEETS

At the regular meeting of the town council on Monday evening it was decided to grant the Vulcan A.A.A. the use of the athletic park for the Victoria Day celebration.

The question of engaging the services of Anderson Bros.' aeroplane for this occasion was also considered.

The travelling of the streets from the I.O.O.F. hall to the C.P.R. depot, and from the United Church to R. Dodd's corner was considered.

A bylaw was passed prohibiting riding or driving on the boulevards in town.

Mr. J. B. Ross has purchased the house formerly occupied by Mrs. Nicholson, and this week removed to his new residence.

Rain interfered with band concert on Thursday evening, but our musical organization rendered some much appreciated selections in the Legion "gym."

### VULCAN COMPLIMENTED

The Lethbridge Herald publishes a letter from Bill Buxton, well-known Calgary sportsman, and proprietor of the Hotel Alexandra of that city, in which he eulogizes the ideals of the executive committee of the proposed Vulcan Athletic association and which we have pleasure in re-printing. Mr. Buxton states that he was deeply interested in the article published on Friday last, and it pointed out that the efforts of those connected with the plan, were townspeople who had the interests of the future generation at heart.

He mentions that if the elders set out to provide clean recreation in many branches of sport for the younger set, it is bound to provide keen competition, clean morals and a still keener bond of sportsmanship, which in turn will show its benefit, by producing citizens who will prove a credit to the community to which they belong. He goes on to say that this has always been his aim in providing trophies in practically all branches of sport, whether it be amateur or professional. He is not associated in any monetary gains, or promotions of sport in which his name is mentioned as a donor of some emblem or a cash gift. He has never received one cent in return, he states but the competition which he sees from his donation, repays him more than the cost of the gift.

In conclusion of his letter he would like to see other towns follow the ideals of this committee, and thinks that if our boys and girls of the 'teen age were given more physical recreation at our schools, we would not have to rely upon imported athletes as our own talent would be bound to rise. He is proud of being a Canadian citizen and he looks to this type of school and organizations to provide future athletes who might eventually be bringing world wide honors to the province and Canada. Percy Williams, the B.C. boy, and several young ladies in the East have given us a time lead, and he feels sure that we have more material here, in our country, and it only needs the encouragement from organizations in our towns and cities to make this country of ours the foremost in the athletic world.

Miss Pauline Lucas underwent a minor operation in the Municipal Hospital last week. The reports are favorable.

### UNITED CHURCH NOTES

Special Mothers' Day services will be held in the United Church, Vulcan morning and evening, and at Berrywater at 2 and Red Cross at 3:30 p.m. Sunday May 12th is Mothers' Day and it is too much to suggest that every Tuxis Boy, Trail Ranger, Explorer, C.G.I.T. and every boy and girl should pay mother some special tribute on that day. Wearing the flower is a good plan but we feel reassuredly sure, that the attendance at church and Sunday school of every last boy and girl will be even more appreciated by their mothers.

Mothers' Day should after all, be only distinguished from other days in that it is the occasion of public tribute to her. No less than three hundred and sixty-five days in the year should be Mothers' Day in the sense that her boy and girl should demonstrate their appreciation by deeds as well as words.

In the morning the boys and girls and little tots are requested to assemble with their parents and friends at 11 o'clock when papers will be distributed at the close of the service. Rev. J. N. Brunton will deal with the "Reveries of Motherhood" also a story by Edna McPherson. Special music by the C.G.I.T. girls. In the evening at 7:30 Mr. Brunton will take as his subject "The Mother-in-law." Special music by the senior choir. The public is invited to these services.

## REQUEST INCREASED TARIFF

For the first time in history the prairie provinces have approached the Tariff Board with request for increased tariff. The Egg Pools of the four western provinces have asked that the duty on eggs be increased from three cents to nine cents a dozen. The purpose is to shut out American and other eggs, and to hold the Eastern Canadian market for Western Canadian eggs. The West has always been insistent low tariff. It has fought for 25 years for lower duties on machinery, building material, clothing, boots and shoes and other things. They have apparently proved that protection brings no benefits and that it is an economical burden on Western industry. The political strength of the West has held the tariff down, and it has been conceded certain sympathy by the East. If however, it reverses its demands and calls for protection on eggs, it greatly nullifies its previous stand. The East is wondering if it is going in for protection. If western farmers call for tariff protection on eggs, poultry and butter, because it may benefit them, and still demand low tariff on farm machinery, clothing, etc. to reduce their cost of living, they are bound to lose a large following. Only a slight increase in manufactured goods, would far more than offset all the gain that the egg pools might make. The West should give great consideration to forsaking its old low tariff policy, in any respect.

## PRINTING HELPS A COMMUNITY

Printing is a highly desirable industry from a community point of view. The community without a printing plant is a very poor, poverty stricken—mentally, spiritually and socially—community at best. Printing has an enlightening and civilizing influence and is a real producer, an industry in which the arts and crafts make a happy union and the results must needs have an elevating influence on the community.

## EDITORIAL COMMENTS

While making his Budget speech, Winston Churchill drank something that did not look like water. That gives him an alibi.

It hasn't been answered yet. Where does the American Secretary of State stand on the question "where shall the Vice President's sister sit?"

Winston Churchill has cut the tax on tea. If George III had done the same, William Hale Thompson might be Mayor of the staid, stately, English city of Chicago.

Essentially low-brow is the doctor who starts to give his opinion in these words: "I'll tell the streptococci world."

Facts are often described as hard, but they are not so hard after all. See how easily they fall for figures.

A magazine writer says that in the United States "baseball is a disease." Beware, therefore, for part of it is catching.

When it comes to business, it is only the Jew who can properly be described as a go-ghetto.

A bible-reading marathon is the latest feature in New York. There's no end to the craze for something new.

Tex Guinan, the hostess of a New York night club, was offered by a tabloid fifty thousand dollars for a daily story of her life in prison. But some people have no luck. Tex was acquitted.

There must be something crude in Alberta when she goes up in the air every time she is bored.

The Toronto Globe has been pitching into the Postmaster General so much he wishes he were a subscriber so he could order his paper stopped.

Some of the members at Ottawa appear to have forgotten that, besides being Speaker of the House, Mr. Lemieux is also janitor of the parliament buildings.

Coolidge fares better. He gets six dollars a word—and doesn't go to jail either.

Calgary man does not believe in the safe-guarding policy. Says each industry should guard its own safe.

Amnesia is a disease which affects the memory and produces complete forgetfulness among people who are not even subpoenaed as witnesses.

"Bulls led bears a merry dance." Market note. That would be on Wall Street.

How would it work if juries when returning a verdict should couple with it their candid opinion of the judge?

"Emperor" Cook has got into the bad books of his Communist comrades by praising the Prince of Wales. Serves Cook right. He helped them get that way, and now he wonders why they are so unreasonable.

Hon. Dr. Edwards was a man of convictions and courage. A thing was either right or wrong and he recognized no middle ground. In defence of what he thought right he would fight friends or foes. And it was no sham warfare with him. He put skill as well as zeal into the combat.

An American Congressman bought Hiram Walker stock and claims to have sold it as soon as he learned it was a liquor stock. He now asks the New York curb to make up the loss because it had no right to list a liquor stock in a country where liquor is a contraband. We refuse to believe his story. To believe that he bought a stock not knowing what it was is to believe him a simpleton, and a Congressman would prefer to have you believe him a trickster than to take him for a dolt.

Sir Clifford Sifton was an exceedingly able man. He had wide vision, clear understanding and a rare power of elucidation. No one could make a shrewder guess as to how a cat was going to jump and few could give greater encouragement to the cat to make the jump worth while. In 1911 he predicted within a few seats what majority the Conservatives would have. On election night he stayed at his club long enough to learn the result in one particular rural and one particular urban seat and then went home satisfied his prediction would come true. He assisted in the formation of the coalition government in 1917, but since then he supported the Liberals with whom he was so unpopular that when they were choosing a leader, Hon. George Graham had some chance until the report was circulated that he was Clifford Sifton's nominee.

Some whimsical thoughts on Home are given by an Englishman who insists that the English are the best home makers. He says:

"Other races may have castles or cabins or apartment block or igloos, but the English have homes."

"To may mind the secret of a happy home, is a perpetually renewed amity between naturally hostile powers, established at first between two, and later amongst several people. This secret is the suppression of certain individual inclinations for the sake of creating a little oasis of peace, happiness, charity understanding and security in the midst of a wilderness of lawless passions, fatal misunderstandings and mutual destructiveness."

"The English of all people have realized this ideal of suspended battle, where you deliberately refrain from fighting with a few people for a while, so that you may gather strength to go out in the world and fight everybody else. Life is a battle and the home should be a hospital where you recuperate."

"To the Scots, home is a debating society, to the Irish a place where you may have a grand row, to the Germans a restaurant where the women cook sausages, while the men begot their minds with philosophy."

"Where but in England can you find such trim lawns, such crisp toast such fine china, such glacial hospitality to strangers and such enjoyment of one's own family. Home is not a place for entertaining friends but a place where you may escape from them. Entertain friends at a club if you choose, but go home to be alone in the bosom of your family."

Alas, even in England the bosom is now usually absent. Home in these days is a combination dressing room and garage, where one changes one's clothes and tunes up the old bus to go some place else.

Children used to be born at home, now they are born away from it, and stay away as much as possible ever after."

## INFLUENCE OF PARENTS

The influence of parents is founded on respect. The value of obedience depends altogether on the motive that sustains it. An obedience prompted by fear is worse than rebellion, and the parent who rules on fear to secure obedience puts himself on the level with the old-fashioned animal trainer relying on cruelty. Far better to rely on understanding—and understanding tempered with sympathy. This should be easy to parents for after all the children mirror their own defects.

## FACTS FROM HANSARD

There are 4430 blind persons in Canada—2527 men and 1903 women.

In Canada's military hospital are 1248 patients.

There are forty-six prisoners under the age of 18 in Canadian penitentiaries—37 Canadians, 4 Americans, 1 Italian, 1 Scottish, 1 Newfoundland, and 2 Norwegians.

Up to March 1929, Canada spent \$4,611,369.87 through the Imperial War Graves Commission and \$1,225,150.75 on war memorials.

During 1927 and 1928, eight cars were purchased for official use by the government. They ranged from an \$8400 Pierce Arrow to a \$3200 McLaughlin Buick.

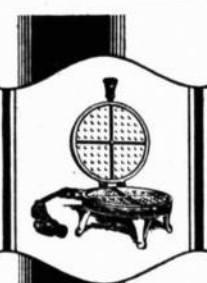

Five pages of the 'original manuscript of Dickens' Pickwick Papers were sold in England for 7500 pounds.

Unlike the ordinary conception of Alaska, a land of Eskimos, icebergs and snow; most of Alaska, in reality is a land of flowers and the climate not unlike that of the Western United States.

Prof. Cary, director of education for the North American Association of Nurserymen, said in an address: "It is an oft quoted fact that one of the greatest handicaps in the development of the west, is the average householder's lack of confidence in his own ability as a horticulturist." The benefit of Dr. Cary's knowledge may be obtained by a small investment from their nursery.

3 Glasses Water  
Help Constipation

One glass of water is not enough—take three glasses an hour before breakfast. Much better results are obtained by adding a teaspoon of simple glycerin, saline compound (known as Adlerika) to each glass. Adlerika acts on BOTH upper and lower bowel and removes old waste matter you never thought was in your system. Stops gas and sour stomach in TEN minutes! Relieves constipation in two hours. Sold by Errett King, Druggist, Vulcan.

## OIL NEWS

During the next few months scores of new derricks will be reared along the stretches of Turner Valley in search for oil. With a growing number of wells gushing streams of high grade naphtha into Alberta's channels of trade, Turner Valley's oil field is definitely established as one of the world's most remarkable oil producing areas.

The limestone mountain from which the naphtha springs is already half explored. The intending speculator should make a study of Turner Valley, through authentic maps which are obtainable. Note the interests which have foothold in the Valley. The Imperial Oil has established itself along the centre of the valley formation from end to end. The whole formation has an area of twenty square miles. The holdings, leases and drilling royalties of Royalite, Dalhousie, Foothills and South West Petroleum, cover 12½ square miles within its boundaries. Foothills No. 1 and Home No. 1 mark the north and south limits of the area in actual production. The operation of these companies is controlled by Imperial Oil officials. In addition Imperial has drilling contracts with Home, Associated Oil and Gas, Baltac, Mayland and Lowery Petroleum.

Okalta is reckoned the biggest of independent companies in point of holdings. It has reharnessed its No. 1 well which resumes 500 barrels a day production. Of the 4000 acres held by Okalta round Turner Valley, the 260 acre block where its three est. No. 1 looks like a big wet gasser, No. 2 is giving 60 barrels a day of crude from the sandstone.

Calmont is probably next in point of interest. Its first well is across Sheep Creek from Okalta 1. It is some distance in the lime and is making very wet gas. It is expected to blow in shortly. Calmont No. 2 has been spotted between Home 1 and 2. The three wells are about 200 yards apart. This company is largely British.

McDougall Segur Exploration, is a pioneer. It holds some land on the west edge of the field level with Royalite 4 and more at the extreme north. New McDougall Segur has its No. 2 well to the north, in the lime. Crude is being taken from its No. 1 well, not yet in the lime.

United ranks its royalty agreements as its major assets. It gets royalty from Home and from Baltac and Associated Oil and Gas. It has shares in Baltac, Associated and Devaish. United has a well in the north half that produced recently 100 barrels a day above the limestone.

Illinois Alberta is operating on a 20 acre corner of new McDougall Segur. Its No. 1 well produces 85 barrels a day. No. 2 is in the lime. No. 3 is spotted.

Alberta Pacific Consolidated appears to be a holding proposition though it has announced intention of drilling its 80 acre property near Home.

Turner Valley Oil Field is being discussed the length and breadth of Canada. It is the topic of expert comment in Great Britain. It is being watched in investing circles in United States.

## THINNING VEGETABLES

(Experimental Farms Notes)

Beginners in vegetable gardening are almost sure to make the mistake not only of sowing seed much too thickly, but also of leaving the plants too thick in the row. A very large amount of seed is wasted each year because of this and failure to have plants develop properly is another result of more consequence to the sower of the seeds than the waste of seed. Thinning of all vegetables is desirable as soon as the plants are large enough to catch hold of, that is, quite small. Lettuce can be used even though the plants are thick, but to have satisfactory individual plants of leaf lettuce the plants should be thinned to five or six inches apart, and the plants of head lettuce should be thinned to eight inches or more apart. They will not develop satisfactory heads if much closer than this. It has been found in the horticulture division, experimental farm, Ottawa, that the largest varieties of head lettuce give most satisfactory results when the heads are nearly one foot apart. Carrots should be thinned to about an inch and one foot apart; beets to two inches apart; parsnips to two inches apart; onions to one inch apart; spinach four to six inches apart. Radish if sown rather thinly are thinned as ready for use. Often too kernels of corn are left in a hill. Five plants are quite sufficient to leave after the cutworms and birds have taken their toll. Bean plants should be from two to four inches apart, and peas about one inch apart. Vegetables will not develop satisfactory if the plants are thick, hence judicious thinning is very important.

W. T. Macoun  
Dominion Horticulturist

If you yourself are not working for goodness sake see that your brakes are.

Lord Charnwood says there were many people in Lincoln's day who sought salvation by repenting for the sins of others. And the species is not extinct by any means.

# Vulcan Herald

VOL. 2. VULCAN, MAY 9, 1929. No. 6

**Vulcan Herald**  
Published in the interests  
of the People of Vulcan  
and the Farms and the  
Farmers of the District.  
J. T. WILLARD, Editor.

10,000 years ago Sze was a fisherman off the coast of China. He was a good executive. Got others to do his work for him. His coolies made him prosperous, but he had trouble keeping them, they would get homesick and quit. His labor turnover was too high. So he hit upon a scheme for entertaining the boys during off hours. He invented a game that required skill, luck and memory. His game was played with 36 cards, at first, but the salt water air and the anger of the losers made him substitute chips of ivory, bone or bamboo. Sze's game was a great success. He nearly cornered the labor market, he became fabulously wealthy. That was 10,000 years ago. Sze called his

game "Sparrow." The game of "Sparrow" still lives but to day it is called "Mah Jong."

Benjamin Franklin said the way to be successful is to "plow deep while sluggards sleep." And we add, with all due reverence to Benny, "Use a McCormick-Deering Little Genius Tractor Plow for the job."

GET RID OF ANTS  
Mix 5c worth of tartar emetic with about the same quantity of sugar. Drop a little of this mixture where the ants run, and nine times out of ten you'll have no more ants.

A baby is a nocturnal animal to which everyone in the Pullman is willing to give a wide berth.

There is a century of service back of every McCormick farm machine—free with the purchase.

## FORDNEY TARIFF

Copy of letter received by J. M. Dillon, Hon. Secretary Western Stock Growers' Association from Jas Poole, Livestock Statistician, Chicago Livestock Exchange.

An opinion concerning proposed increase in United States tariff.

The present Fordney tariff has never been defensible either from a revenue or protective standpoint.

A statement that it never added a penny to the value of any steer grown in the United States is not open to successful contradiction.

Much of the revenue collected under that tariff has been dissipated by cost of administration.

Until the tariff acquires the faculty of wagging the dog, such schemes ostensibly designated to promote domestic production will continue either visionary or deceptive or both.

Increasing the cattle tariff at this juncture will get our commercial breeders nowhere and will be positively detrimental to our feeders.

It is significant that Kansas and Oklahoma pastures could not have been replenished this Spring had cattle imported from Mexico last Fall and wintered in South Texas not been available. The proposed duties would have been exclusive.

Cornbelt feeders are now required to pay the highest replacement prices for cattle since the war, prices that are not far from the lofty levels of that period. Even then it is impossible to satisfy their needs.

If a surplus of cheap cattle existed in the United States and present stock cattle prices were not profitable to growers there would be justification for increasing the tariff, but in an economic sense, under existing and prospective conditions the proposition is wrong. It is a product of the school of practical politics designed to deceive those in whose interest it purports to prove beneficial.

Concealed in this added tariff proposal is a possibility of admission of South American meats, in fact the thing is pregnant with danger to United States commercial cattle interests. There is good ground for suspicion that its accredited opponents are actually proponents and that enactment of such a tariff law will speedily disclose the hue of the Senegambian now concealed in the woodpile.

Protests against beef cost in the populous eastern section of the United States has recently been openly manifested by strikes and boycotts especially in New York City and Boston. Is it not logical to assume that any legislation open to the suspicion of increasing beef cost will be resented by the great army of consumers.

And is it not logical that American packers, operating South American plants will, secretly at least forment such suspicion?

And will not the many meat distributors, retailers and others manning that arm of the industry take advantage of the opportunity such tariff increase will create to raise a hue and cry of protest against increasing cost of living?

If this proposed tariff increase is made effective by Congress my prediction is that within a short period consumers leagues will be promoted all over the Atlantic seaboard region to urge necessity for admitting Argentine meat.

Such admission means modification of the foot and mouth disease embargo and is not within the sphere of tariff legislation. The secretary of agriculture being empowered to modify or rescind the embargo at any moment.

And what would be more logical from a political standpoint than giving the cattleman the tariff he is credited with demanding; the consumer the beef he seeks to relieve his present short-rationed condition.

Argentine will accept the tariff contently; all it asks is removal of the foot and mouth disease embargo.

This proposed tariff increase is loaded with trouble not only for the domestic cattle raiser, but the entire agrarian groups as it means re-introduction of foot and mouth disease, eventually if not sooner.

Powerful interests are behind the Argentine effort; all they need is a reasonable excuse and this will be furnished by an excessive tariff.

Taxing the people's food is dangerous when prices are high and cost is ascending as is the case with beef at present. A quid pro quo will be promptly demanded.

Other factors, such as treating Canada, our best customer, fairly are minor. Self interest is always of paramount importance and it is not to the interest of United States cattle growers to walk into a trap where they will find themselves defenceless.

Having been served their pound of his present emergency the domestic cattleman would actually display tact by advocating admission of Canadian and Mexican stock cattle duty-free, in the interest of feeders and pasturemen facing the restocking problem and beef consumers.

If I believed a tariff increase would prove beneficial to our cattleman I would advocate it regardless of how it injured Canadian growers, but I am convinced that all the stock cattle Canada and Mexico combined can send to this market for many years cannot affect the general price to the extent of a nickle per hundred pounds.

## ENSIGN NEWS

The tennis court has been fixed up and is in real good shape and makes quite an added attraction.

Ensign Church services held every Sunday afternoon in the school house Preaching by the Rev. J. J. Farquhar and Sunday school at 2:30 pm. conducted by Mrs. A. Smith. Everybody welcome.

The W. I. will meet at the home of Mrs. L. E. Elston on the 14th of June instead of 7th as stated in last weeks report.

Mr. and Mrs. A. M. Meyers and Gordon spent the week end at the home of Mr. and Mrs. W. McFadden at High River.

A meeting was held in the school house Thursday evening for electing new officers for the tennis club. The officers are as follows: Mr. A. M. Meyers, president; Mr. E. Harris, vice president; Mrs. A. M. Meyers, secretary-treasurer. Grounds and purchasing committee, Mr. A. St. Pierre, Mr. W. Mullens and Mr. Meyers. It was also decided to reduce the fee this year to one dollar each member as we expect a larger membership than last year, so everybody join in and play, young and old.

The meeting of the Ladies Aid was held at the home of Mrs. N. J. Dwigans, Wednesday last. Mrs. E. Harris, vice president, opened the meeting by all singing a hymn, a reading from the bible by Mrs. J. Ruark which was followed by prayer. Minutes were read and roll call answered by verses. It was then voted to subscribe a sum of money to the Bible Society. A very interesting paper was read by Mrs. J. Ferguson also a duct given by Mrs. W. and Mrs. A. Smith and Miss Paton, discussions on a silver tea which will be held some time next month with all arrangements. Meeting adjourned. Refreshments were served by Mrs. N. J. Dwigans and Mrs. L. Finlayson. Next meeting at the home of Mrs. A. Smith June 5th.

## ARROWWOOD NEWS

The baseball boys are preparing for some good games this season.

There is some talk of beautifying the Arrowwood cemetery this season.

No work as yet is being done to complete the railroad on west, as promised.

Lyle Bros. have a new real estate office building north of the Bank building.

Steps are being made to make Arrowwood's annual sports day, June 3, the best ever.

Dr. and Mrs. Alexander's little two-year-old boy was reported dangerously ill at Arrowwood.

Arrowwood is still growing. There are one or two private houses under construction at present.

It is reported Mrs. R. R. Saunders has purchased a building to use as the Telephone exchange office in Arrowwood.

Farmers found much moisture in the summerfallow at seeding and with the rain of last week and this are looking forward to another good crop.

The Arrowwood Hotel building is being pushed and it is expected to be ready for business, the fore part of May. At present Mrs. Horning is serving meals in the dressing rooms of the curling rink.

Frank Kelsey, aged 67 years passed away on Tuesday, April 16th. The funeral services was held at Mr. Culp's home at Arrowwood on Wednesday. He was highly respected by all those who knew him and had resided at Arrowwood about three years.

A deep gloom was cast over the entire community on the afternoon of Monday, April 22nd when it became known that Viva Birdie, daughter of Mr. A. L. Ingraham of Arrowwood, had been suddenly called by death. The funeral services which was largely attended was held at the Ingraham home on Wednesday, April 24th.

As spring approaches, let us all try if we cannot make some plans whereby we can make some improvements and "slick up" our places a bit. For places are an indication of character and by fixing up we will be benefiting ourselves and beautifying the country.

The tariff increase proposition is not on the square. If Congress had the best interests of the industry under consideration it would put a tariff on hides immediately. Fall hides have seriously affected cattle prices, incidentally increasing cost of beef to consumers. The Fordney tariff has had no other effect than harassing Canadian growers.

It is time for our cattlemen to refuse to be bunned by politicians and self-styled leaders. I am apprehensive that when that happens protection will become a reality and the fleas will have unanimously deserted the dogs forever.

The real menace to our domestic industry is admission of Argentine beef, not putting a prohibitive tariff on a handful of Canadian cattle that cannot by any stretch of the imagination or any false philosophy be considered capable of influencing values of domestic product. If 300,000 cattle are capable of determining, or even influencing the value of twelve million, our conception of the operation of economic law needs revision.

Let the American cattle grower get into the jam threatened by this tariff device and he will be severely penalized and he should be sufficiently astute to detect a hole in a ladder unless his vision has been obscured by the tariff fetish.

## VALUES OF WHEAT

From the Grain Research Laboratory of Winnipeg comes a report on the 1928 crop, as regards its milling and baking value.

The 1928 crop is superior in every way to the 1927 crop. The weight per bushel of each grade is higher, and this is true particularly of the lower grades. The protein content of the 1928 crop is higher in each grade. The baking quality of the flour is superior in volume, texture and color.

Last year's No. 4 produced a loaf the equal of No. 2 Northern. British millers have been buying heavily in No. 4 wheat.

Grades 5 and 6 however, do not yield as much flour. These grades may be well used for blending purposes with higher grades, and produce a surprisingly fine loaf.

Again regarding frost, wheat which is frosted when the moisture content is 44-46 per cent less appears to be equal in milling and baking value to normal wheat even though the percentage of wrinkled kernels be high.

Last year, though frost came before the grain was mature, yet the quality of flour was practically unimpaired. When wheat is affected by a "bran frost" the quality is unimpaired. If frosts occur when wheat is in the milk, then results are indeed serious. In baking the result would be noticeable in the volume of the loaf and in its soggy appearance.

In the bleaching of wheat—the slightly bleached wheat (that is where only the outside kernel is affected) shows but very minor changes and loses little actual value. The contention is that if such wheat is not reduced in weight, and is not damaged in other senses it should not be reduced in grade.

The milling and baking qualities of wheat are profoundly altered in a thorough bleaching. The general baking quality is greatly improved. The presence of a large percentage of bleached kernels in wheat often improves the baking quality. Flour from thoroughly bleached or slightly sprouted wheat when added to flour from the ordinary contract grades produces a decided improvement in loaves.

Wheat which is degraded because it shows bleaching or sprouting but which is sound in other respects, should not be placed in the same bin as heavily frosted wheat or that with green kernels. They have entirely different baking qualities and sprouted wheat has qualities highly valuable to the miller.

Spring threshed wheat, not otherwise damaged, shows similar characteristics to sprouted wheat and should be treated similarly.

## TO SPAN THE WEST

A project which is most ambitious in its scope, has been divulged by W. S. Herron. This is the piping of Turner Valley gas to Regina, Moose Jaw, Saskatoon and other cities and towns of the prairie. It is a fifty million dollar proposition and has been favorably received and considered by financial interests in New York City.

For a considerable time engineers have been investigating means of using the surplus gas of Turner Valley. Basing their plans on the steady increase of supply through Alberta they have encompassed the entire West as a possible gas market. The program would provide the piping of gas into all the larger centres from the Rockies to Winnipeg, Wainwright, Low Island and other gas fields might also be utilized.

Huge gas deposits are known to exist which have not as yet been made use of. The engineering part of it has been investigated, and the financial arrangements are in the making. It is the firm conviction of many that this scheme is possible of realization in the not far distant future.

## CAMPERS' COURTESY

A cry for the protection of farmers ranchers and owners of country homes against the impending invasion of city motorists, is being voiced in the press.

The season is commencing when town and city people look forward eagerly to a day spent in the country. On the other hand, many country people anticipate these "days in the country" with a corresponding dread. Owning to the thoughtlessness and discourtesy of a few city dwellers who launch themselves on private property, setting fires in unprotected places, scattering rubbish around, hacking down trees for tent poles, leaving gates open—because of this the whole race of town dwellers is apt to find it self in disrepute.

On the days when city people do their gallivanting, many country people feel that these are days when they must remain at home to avert possible disaster from opened gates and runaway fires.

It is a pity that private beauty spots, which formerly were open to the public, should now be posted against invasion. But the fault for this lies entirely with the ignorant or thoughtless city cousin. And stiff discipline should be meted out to any tourist who violates the beauty of a picnic spot or who abuses privileges.

A judge criticizes in a newspaper the reasons given by the appeal court for setting aside his judgment. Somewhat irregular, of course, but it must have given him some satisfaction.

# ANNOUNCEMENT

We wish to announce to the many friends and customers of Mr. N. Holmes that we have taken over his general store business. Mr. F. M. Anderson, who has been associated with Mr. Holmes during the time he has been in Vulcan, has become a partner in the new firm, and will be active manager of the same.

It will be a policy of the new company to carry a grade of merchandise most suitable to the requirements of the trade. We are already lined up with Eastern manufacturing firms and Western Jobbers and are therefore in a position to buy to the very best advantage, and this will be reflected in the values we shall offer.

Yours for Greater Business,

**F. M. Anderson and Coy.**

### NOTICE To Creditors and Claimants

In the Estate of ALEXANDER McDONALD, late of Vulcan, Alberta, deceased.

NOTICE is hereby given that all persons having a claim upon the estate of the late Alexander McDonald, deceased, who died on or about the 25th of November, 1927, are required to send to the undersigned, solicitor for the Executor, by the 15th day of June, 1929, a full statement duly verified, of their claims, and any securities held by them, and that after that date the executor will distribute the assets of the deceased to the parties entitled thereto; having regard only to the claims of which notice has been so filed or brought to his knowledge.

DATED this 24th day of April, 1929.  
L. H. STACK,  
Solicitor for JOS. McDONALD,  
The Executor.

A clergyman says that "happiness is an instinct." And Edison says he doesn't know anyone who has it.

### LOCAL NEWS ITEMS

Much interest is being taken in the golf competition now proceeding between president and vice president. Some good games have been played and many that were "not so good."

Mr. and Mrs. Ed. Arme, who have been spending the past six weeks in Seattle, returned home on Saturday night. Their trip was very successful and report an enjoyable holiday.

Constable and Mrs. Bull of this town, left on Wednesday night for England. They expect to visit at Niagara Falls and other places of interest in the east. They will have a three months vacation.

Mayor Butchart and the other local authorities have been setting an example to the rest of the citizens as to the observance of clean-up week. The streets have been levelled and, incidentally, the silent policeman on the principal corner has been removed, and altogether the town has a much improved appearance.

The regular meeting of Vulcan Lodge, B.P.O.E., takes place on Monday next when there will be a large class of candidates. Visitors are expected from Okotoks, High River, Staveland, Champion and other points, besides officers and brethren from Calgary Lodge. A full attendance of the local brethren is particularly desired.

Mr. A. L. Burrows, formerly of this town is spending a few days here in preparation for moving his family to Edmonton. Mr. and Mrs. Burrows have lived in this town for a number of years and have a large circle of friends in Vulcan and district, who are very sorry to see them leave. Mr. Burrows sold out his business to Mr. Duncan and purchased a similar business in Edmonton.

### KIRKCALDY NEWS

Mr. Glen Robbie, who has been attending University at Edmonton, has returned to the farm for the summer. Kirkcaldy is getting quite up to date. A new oil station is now going up.

Mr. Frank Hobbs of Raymond has been spending a few days at the home of Mrs. H. F. Boose.

Mr. A. Roebuck spent the week end in Calgary.

Mr. Russel Robbie spent Sunday in Calgary.

### TO COMBAT FLIES

The time to start the fly campaign is in the early spring when the fat, lazy insects creep out of corners to enjoy the warm sun. If these are neglected they produce a line of descendants running into millions before the season is over. The hand spray seems to be more effective than the swatter, which even under the most zealous hand misses a few, and usually leaves a mark. The dollar or so investment in a spray is not much when spread over a season. And it is infinitely more thorough and efficient than the swatter, besides being a time saver. Bring on the full artillery against flies, early in the spring, and after that there need be only minor engagements.

A celebrated surgeon says the seeds of cancer may lurk in a wart. The safe plan is to have the Finance Minister remove it with his wart ax.

### HIGH SCHOOL REPORT

(Continued from Front Page)

satisfactorily in one year, the average student throughout the province can handle only six with a fair degree of success. If a student of the first year fails in any unit at the departmental examination, that student should make up his mind to spend three years in mastering the work that is placed in the Grade X and XI sections of the course of studies. Exceptions are met with, of course, but the general result is that such students must spend an extra year in the high school.

It is hoped that parents and guardians will see that students give all

## ANNOUNCEMENT

### To Our Patrons:

As this is the last time our name will appear in this space, we take the opportunity of extending to our many customers our appreciation of the splendid support they have given us, and it is with regret that we sever our connection with them.

For our successors, who will be represented by Mr. F. M. Anderson, whom you all know, we can but ask a continuance of your patronage.
